## START WITH A STANDARD BIN AND THEN...

### COMPACT & STACKABLE

We've built efficiency into our designs. All bins are stackable and either nest or break down to store inside each other when not in use.

### REUSABLE & RECYCLABLE

Bins are engineered from high-density polyethylene which is stable and durable. When their useful lives are over, they're 100% recyclable for zero waste to landfill.

SOLUTIONS

## INNOVATION IS IN OUR DNA

**customize solutions** — whether it's custom sizing to fit a material handling system, custom colors to match your brand, casters to improve workflow, doors for better access and ergonomics, lids, latches, drains, or more.

**Our goal is to provide exactly the right bin for the application, without compromise**

We give you the flexibility to design custom solutions that are built specifically for your business.

Like all our bins, our **CUSTOM BINS** are...

### BUILT TO LAST

All bins are made from high-density polyethylene (HDPE)—a versatile plastic that's incredibly strong, but surprisingly lightweight. They're extremely rugged. Impact-resistant. Temperature-resistant. UV-resistant. Weather-resistant. Rot-resistant. Mold- and mildew-resistant. They stand the test of time in even the harshest environments.

### FOOD-SAFE

Our bins are designed for the most rigorous demands in food processing and agricultural settings. Unlike wood bins, they don't harbor splinters, pests, pathogens, or mold. They meet all USDA/HACCP food handling standards. And they can be high-pressure washed, sterilized, and used over and over again for many years.

## START WITH A STANDARD BIN

### CHOOSE

MACXACE  
48'L x 40'W x 31'H  
Solid or vented

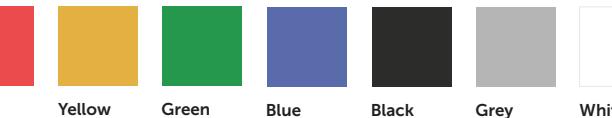

MACX  
40'L x 48'W x 31'H  
Solid or vented

Additional length, width, and height options are available. Please consult your local sales representative.

### COLORS

Choose from seven standard colors, or send us any custom color and we'll match it (minimum orders apply). Vented bins are only stocked in gray.

### SIZE

Size is everything when it comes to efficiency in handling, storing, and moving goods. So beyond our standard sizes, we're happy to customize the height, length, and width of most any bin. Once you've selected a standard bin, use that as a starting point to adjust its dimension anywhere in the ranges shown below.

40" Width x 31" Height		RANGE
LENGTH ONLY ADJUSTMENT		
For longer bins	L	Length 59"-112" Length 117"-136"
For shorter bins		Length 20"-42"
48" Length x 31" Height		RANGE
WIDTH ONLY ADJUSTMENT		
For wider bins	W	Width 49"-136"
For narrower bins	W	Width 20"-36"
48" Length x 40" Width		RANGE
HEIGHT ONLY ADJUSTMENT		
For taller bins	H	Height 36"-77"
For shorter bins	H	Height 8"-30" (with caps) Height 14"-30" (welded)
31" Height		RANGE
LENGTH AND WIDTH ADJUSTMENT		
For longer length AND narrower width bins	W L	Length 49"-136" Width 20"-42"
For shorter length AND narrower width bins	W L	Length 20"-42" Width 20"-36"
40" Width		RANGE
LENGTH AND HEIGHT ADJUSTMENT		
For shorter length AND height bins	H L	Length 20"-42" Height 8"-30"
48" Length		RANGE
WIDTH AND HEIGHT ADJUSTMENT		
For shorter width AND height bins	H W	Width 20"-36" Height 8"-30"

## CUSTOM BINS

SOLUTIONS

### SIDE ACCESS

Get ergonomic access to bin contents three ways. Cutout walls, removable walls, or hinged drop doors make it easy to add to, access, or empty your bins.

### LIDS

Keep contents clean, contained, and protected from the environment with HDPE structural foam lids available with three closure styles.

### DRAINS

Two drain styles let you remove liquid safely without siphoning, tipping, or pouring. Drainplug designs have exterior threading for attachment to a hose or pump system. Bulkhead designs are flush mount with internal threads.

### LABELS, CARD HOLDERS & RFID TAGS

Identify contents with adhesive labels, cardholders (available in adhesive mount or welded mount), or RFID tags that work with automated inventory management systems to identify and track bin contents.

### RUNNERS

MACX series runners are replaceable and are available on the 40" or 48" side. MACX fit a wide range of material handling systems. MACX bins are all 4-way entry.

### CASTERS

Casters improve efficiency, ergonomics, and workflow. Choose from polyurethane-on-iron or stainless steel in 4", 5", 6". Both types of casters are available in all-swivel for free movement, rigid casters for uni-directional movement, or a combination of both.

Casters may be mounted through the runner (nonstackable) or through the bottom (stackable) in light- or heavy-load designs.

**MATERIAL**  
► Polyurethane-on-iron  
► Stainless steel

**MOVEMENT**  
► All-swivel with brake optional  
► Rigid  
► 2 Rigid/2 All-swivel with brake

**SIZE**  
► 4"  
► 5"  
► 6"

### EMBOSSING

Permanently emboss your name, logo, text, or graphics on the side of your bin. Minimum orders apply.
